```c
//C program to read and print data stored in a file "input.txt".
#include<stdio.h>
#include<conio.h>
int main ()
{
    FILE *fp;
    char ch;
    fp = fopen("output.txt","r");
    if (fp == NULL)
    {
        printf("Error to open the file.\n");
        return -1;
    }
    printf("The contents of file \"output.txt\" are :\n");
    while ((ch = fgetc(fp)) != EOF)
    {
        printf("%c", ch);
    }
    fclose(fp);
    getch();
    return 0;
}
```

```
OUTPUT
The contents of file "output.txt" are :
"Hello World"▯
```
